

Let your voice be heard!

Join Community Care for a Family Advisory Committee Meeting!

Community Care is a nonprofit managed care organization. We oversee behavioral health care services and programs that our members receive. Community Care works with providers to help them to deliver innovative and accessible, behavioral health services. Our belief is that behavioral health recovery is possible and that all individuals should have a voice in their treatment.

Our number one goal is to improve the quality of services for children and youth. We can work together in a partnership focused on your child's resiliency, health, and well-being. We need your feedback to achieve that goal!

Who can attend?

- Adult family members of Community Care members
Members of Community Care are individuals who are currently enrolled in Pennsylvania HealthChoices.

Eligible family members who attend the meeting will receive:

- Free beverages (*meals not included*)
- \$35 for attending the entire meeting
